Market Breaks Heavily Following Gradual Advance.

DROPS GENERALLY EXPECTED

Reactionary Movement Most Noticeable in Steel, Union, and Southern Pacific, Rock Island and Reading. American Beet Sugar, American Car, and Standard Stocks Hold Up.

New York, July 21 .- Prior to the opening of the market to-day stocks had advanced on six successive days, and on the last three of those days had closed at a higher average of prices than previously since the panic.

viously since the panic.

There was a further advance at the opening, and in the trading immediately the court in the court of the cour

opening, and in the trading immediately thereafter, in the course of which Union Pacific sold up to 199½, a new high record, and other stocks sold at higher prices than previously in the year.

But this advance was soon stayed, and throughout the remainder of the session prices declined, at first slowly and in a listless market, but in the last hour more sharply and in more active trading. The reaction occasioned little surprise, for extensive profit-taking was by no means unexpected after a six days advance, and that selling by professional traders should accompany the profit-taking movement was also to be expected.

Reaction Noticeable.

Reaction Noticeable.

The reactionary movement was most noticeable in the Steel shares, Union Pacific com. 199 Union Pacific com. 190 Union Pacific pfd. 108 Wabash com. 21% Wabash pfd. 57% Western Maryland. 65% had profited most from the previous ad-

most of the standard stocks, so practically all of these were embraced in the reactionary movement.

In no instance, however, was there lost more than a smail proportion of the previous gain, and in no case was there a break of sufficient amount to indicate any particular weakness in the technical position, such as is often disclosed by the execution of stop-loss orders.

It was, on the other hand, a gradual, orderly, and seemingly natural reaction, which showed accounts a proper central Leather pfd.

orderly, and seemingly natural reaction, which showed no weakening in the underlying stability of the market and no change in the attitude of important holders of securities. Exceptions to the reactionary movement were noted in American Beet Sugar, American Can, Internaican Beet Sugar, American Can, Interna-tional Paper preferred, Mackay Companies, New York Air Brake, and other ordinarily inactive industrial stocks, and among the standard railroad shares, the among the standard railroad shares, the New York Central remained conspicu- National Lead com., ously strong until just before the close. usly strong until just before the close.

MONEY.

The word money is derived from "Moneta," the first Roman coins having been minted in the temple of Juno Moneta. There are many interesting things in the history of money, but nothing will interest one so much as having money laid away safely for life's emergencies in this old bank.

You are cordially invited to come in and open an account. We pay 3% interest, compounded semi-annually.
